Holidays' Homework
Class – III

Dear Parents ,
Summer Vacation ! A long time to rejoice and recreate for all children. It is an appropriate period when the parents spend quality time with their children and try to discover their hidden potential, to realize their talents and raise their self esteem. Vacations give children a chance to relax. Besides relaxing, there should be healthy mix of play and work. Punctuate their relaxed moments with constructive and creative work , this will surely enhance their confidence.

- **Encourage your child to take healthy food.**
- **Take your child for outing and fun.**
- **Try to spend maximum time with him/her & develop an everlasting bond.**
- **Make sure that your child completes his/her homework neatly.**
- **Help your child inculcate good habits.**
- **Recite a story to your child and ask him/ her to narrate it.**
- **Converse with your child in English.**

So spend these holidays creating an environment filled with fun, frolic, learning & education.

Regards
Principal
S.D. Vidya Mandir City

Dear Parents,

Different types of languages are spoken by people from different regions, but the most important thing is that any language when spoken should be spoken correctly. The two common languages that our children should be able to speak fluently are Hindi and English. Since English is a universal language spoken and understood by people all over the world, we want our children also to be proficient in speaking it and for this we need full support and cooperation. We would appreciate if you adhere to the following points:

- 1. Speak with your child in English.**
- 2. Encourage reading habits.**
- 3. Read out story-books and after finishing the story discuss it with your child.**
- 4. Encourage Word Building and Picture Talk.**

The teachers are trying to encourage the children to use simple words, phrases and sentences like:-

- May I go to play?**
- May I borrow your pencil / eraser / sharpener?**
- I have finished my work.**
- Ma'am, may I go for the convenience?**
- Ma'am, may I go to quench my thirst?**
- Ma'am, may I come in please?**
- Ma'am, may I go to wash my hands?**
- Ma'am, may I sit in the front row as I can't see from the back?**
- Ma'am, I came late as I missed my bus.**
- Ma'am, I'm sorry. I have forgotten to bring my book, note book, pencil / eraser / Drawing book etc.**

Use of magic words like excuse me, sorry, thanks, please.

- When asking for something, say "Please."**
- When receiving something, say "Thank you."**
- If you need to get somebody's attention right away, the phrase "excuse me" is the most polite way for you to enter the conversation.**
- Knock on closed doors and wait to see if there's a response before entering.**

Children can be encouraged to use simple words and sentences at home also.

For Example –

- Mummy, can I help you in the kitchen?**
- Mummy, can I lay the table today?**
- Papa, can I help you wash the car?**
- Grandpa, should I come with you for a walk?**
- Mummy, can I get you a glass of water?**
- Papa, please teach me how to ride a bicycle.**
- Mummy, can I join the summer workshop in the school?**
- Didi, can you help me find my English note book?**
- Papa, can we go cycling together today?**

Wishing people properly – Hello Uncle / Auntie how are you?

Wishing parents and elders Good Morning, Good Afternoon, Good Evening and Good Night.

ART

➤ Complete the below mentioned pages in Art Book

- Earthen Pot & kalash Pg. no. 17
- Tortoise Pg.no.20
- Manjusha Art Pg. no.23

Computational Thinking Based Questions

1. In a 3-digit number, the digit in the tens place is twice the digit in hundreds place. What could be the maximum possible sum of the digits?

- a) 21 b) 12 c) 27 d) 18

2. Product of two numbers is 100. Which of the given options is DEFINITELY true?

- a) Sum of these numbers is 25 b) Sum of these numbers is 20
c) Sum of these numbers is 52 d) None of these

3. With regards to the figure given below,

X = (The smallest 3-digit number made using different digits from the circles) + (any one digit present ONLY in a rectangle)

What is the highest possible value of X?

- a) 255 b) 253 c) 252 d) 247

4. Which number will you get if you subtract 1 from the smallest 3-digit number?

- a) Largest 3 digit number b) Smallest 2 digit number
c) Largest single digit number d) Largest 2 digit number

5. Find the next term in the given series:

220, 235, 260, 275, 300, 315, 340 , _____

- a) 365 b) 375 c) 355 d) 345

6. When the sheet is folded along the dotted line, which two identical shapes will overlap?

- a) Triangle b) Square c) Circle d) Diamond

7. Which of the following shape CAN NEVER give a 4-sided figure, when folded only once into two equal halves?

- a)  b)  c)  d)
