## PRINCIPAL'S ADDRESS:

I feel honoured and truly privileged to be the Principal of PIET Sanskriti School, an educational institution where I believe every child and teacher is a stakeholder and every day is an opportunity to learn and discover. I am excited and look forward to working with our students, staff and parents to make PIET Sanskriti School a community of learners and the absolute best it can be.

Our sole focus will remain on the development of every child while striving for the highest academic excellence with a personalised curriculum for each student. We are implementing a well-balanced curriculum that ensures the child receives not just quality education but also develops personal responsibility, self-control, good decision making skills, self-confidence, and character building with high moral values.

As principal, I will continue to develop and enhance a school that reflects the values of its community, develops true partnerships with each student and embrace the new normal standards in education which is Edu 4.0.

I have an open door policy and urge all parents to take this opportunity to discuss any issue they might face with their child, with me so that we can move forward together.

We truly have a fantastic school with a supportive and involved parent community, dedicated and highly skilled staff, excellent resources and buildings and of course, wonderful students to work with.

My commitment to our community is to lead the school with enthusiasm and passion to enable us to reach our goals. I believe in upholding high standards with an commitment to understand, improve and innovate the educational process.

Ms. Vaishali Arora  
Principal, PIET Sanskriti School

## STRIVING TO BE THE BEST

PIET Sanskriti School is a unique initiative taken by the Vidhyapeeth Education Trust towards inculcating a holistic blend of culture, heritage, values, and beliefs in young minds, with a modern approach to learning. Innovative learning study models, a positive school environment and a structured curriculum to provide our little learners with opportunities to imagine, explore and grow into independent thinkers, ready to take on the world.

PIET's mission is to build creative, disciplined, confident and dynamic leaders of tomorrow. Considering technical evolution and its pace which is taking place at such accelerated speed, we are at the brink of change where the learner will be at the center of a futuristic ecosystem - Education 4.0.

Our unique differential includes interactive curriculum programs with a blend of traditional values to create future leaders. Starting formative years, our students collaborate with peers by analyzing, interpreting and applying textbook concepts in real life. Such project-based learning equips learners for a plethora of new career opportunities the future holds and helps our young learners imbibe social as well as emotional quotient (SEQ).

## STRONG FOUNDATION AS A STEPPING STONE

Amidst lush greens, PIET Sanskriti School offers a vibrant, multifaceted learning environment that fosters the love for knowledge, our structured curriculum, and experiential, inquiry-based approach to learning in a nurturing open environment makes children imbibe learning concepts successfully.

## WORLD CLASS INFRASTRUCTURE

Our world-class arenas provide students with modern classrooms to enhance their learning abilities. An environment that fosters excellence and motivates students towards better performance. Our air-conditioned classrooms are aesthetically designed and integrated with HI-tech interactive teaching methods. The classrooms are embedded with sufficient technical support to provide students with guidance and interesting learning sessions.

## TRANSFORMING LEARNING WITH EDUCATION 4.0

Global connectivity, smart machines, and new media are just some of the drivers reshaping our thinking, development, and future. Emphasizing that, PIET Sanskriti School believes in imparting knowledge and skills to prepare young learners for the future. Education 4.0 offers students with various e-learning options and creative modules of studying. These teaching methods provide students with personalized learning experiences.

Education 4.0 involves accelerated remote learning which enables learning anytime anywhere with the help of e-learning devices. It makes learning more interesting and prepares students to become technology savvy. The impact of technology on the education industry will not only transform the way it is imparted but also the way students perceive education. It is time to witness this change and inculcate in our lives for a progressive, intellectual, knowledge-driven and future-ready world.

### STRENGTHENING MINDS WITH CURIO-CURRICULUM

Early years are the best time to develop a passion for knowledge. Our well-structured, specially designed curio-curriculum undertakes an experiential, inquiry-based approach to learning in a nurturing, open environment where children can explore their imagination, collaborate and creative solutions.

### FUTURE-FOCUSED LEARNING

We prepare our students for a future where creativity will be the currency. By pre-empting the intellectual needs of the global economies. We have evolved our pedagogies to develop critical thinking, problem-solving skills, and proactive mindsets in our students. We incorporate the best practices of international teaching methods along with the traditional values of rigor, hard work, and respect for elders. The curio-curriculum is well structured with a focus to nurture young minds. The curriculum is equipped with a unique integration of traditional and modern educational theories and practices in alliance with CBSE requirements.

# GATEWAY TO FUTURE

## Play way and Pre-Nursery

PIET believes in nurturing young minds with development skills for the future. We incorporate interactive activities along with studies to make learning engaging and interesting. The play way and pre-nursery study programs are strengthened with Education 4.0 to provide students with a better learning experience to enhance their abilities.

E-learning has dramatically changed the teaching and learning process in classrooms. Thus, PIET believes in using the right technology to enhance the young mind's cognitive and social abilities.

An essential advantage of using e-learning platforms in the early stage of education is that it helps to improve the social interaction of young children. We incline a range of interactive books along with creative digital content for effective learning. Parents can use our digital platforms to refer back at home.

## Kindergarten and Nursery

Sending children to kindergarten is critical for their future growth and development. PIET offers excellent kindergarten programs to offer children a variety of learning experiences that are fun and learning-oriented at the same time. Our education 4.0 will strengthen your child's learning abilities through interactive web sessions and a project-based curriculum.

Kindergarten and Nursery will introduce your child to new ideas and develop a new set of skills. Students can develop language skills, numeracy, and reading abilities. PIET focuses on providing students with improved cognitive skills, social interactions, and develop a good learning start.

Our E-learning module includes interactive games and learning activities that are available on digital platforms for parents to refer back home. These activities help children improve their thinking abilities and develop crucial skills.

## Primary School ( I- V )

We offer a well-structured curio-curriculum that emphasis comprehensive theme-based knowledge which aims at providing holistic development to young minds. With the help of education 4.0, we aim at providing modern and technology-based knowledge and skills to students which can help them get familiar with technology at an early age.

The study programs are carefully designed with a blend of both traditional and modern values which caters to their desire to absorb and inquire. Students are provided with interactive activities that are challenging as well as purposeful to help keep students engaged in learning.

## Middle School ( VI-VIII )

Students are trained to excel academically and acquire communication, organizational and analytical skills. The curriculum is updated annually to incorporate modern technology and modifications according to educational trends and CBSE.

The school takes account of excellent educational practices and high-quality research-based projects from around the world in drafting the curriculum and search for the most effective ways to ensure each child learns effectively.

Leaders and senior staff at PIET take responsibility to ensure that the curriculum undergoes continuous review and development. The school also emphasis teaching a third language. The French language is taught from class V-VII.

## Passion for Knowledge

At PIET Sanskriti School, we offer a vibrant, multifaceted environment that fosters the love for knowledge. Our structured curriculum and experiential, inquiry-based approach to learning in nurturing, the open environment makes children develop their social skills as well as a deep understanding of concepts.

### 6 PRONGED APPROACH

Our sustainable learning framework ensures that students are eager to learn and grow holistically in all aspects of development.

### PHYSICAL DEVELOPMENT AND HEALTH

Promoting physical activity, coordination, and healthy eating

### EMOTIONAL, PERSONAL AND SOCIAL DEVELOPMENT

Instilling positivity, respect, relationship and self-confidence

### LITERACY KNOWLEDGE AND SKILLS

Phonetics and writing practice through a range of materials

### MATHEMATICS AND KNOWLEDGE SKILLS

Improving skills in counting; basic addition and subtraction

## REBOOTING WITH 4.0

Our unique differentials include our non-traditional teaching methodology. Starting formative years, our students collaborate with peers by analyzing, interpreting and applying textbook concepts in real life. Such project based learning equips learners for a plethora of new career opportunities to explore worldwide.

### Smart Boards

An effective learning tool, smart boards have been installed to give students the freedom to watch educational videos, along with showcasing their projects.

### 3D Labs

Immersive technologies of learning bring textbooks to life, ensuring that students understand even the most complex concepts with clarity and ease.

### STEM Lab

Our sophisticated tool-based labs augment practical knowledge and skills in the core subjects of Science, Technology, Engineering, and Mathematics.

### Robotics Lab

Budding innovators are provided with age-appropriate tools and proper guidance to conceptualise, design and build working robots.

### Live Lecture Recording

Embracing innovation in education, PIET Sanskriti School HUDA campus is the only school in Panipat to have introduced this system of learning. These Live Lecture Recordings enable parents to understand and see how the lectures are conducted in the classroom.

## SPORTS EXCELLENCE

PIET Sanskriti School believes that there is a strong link between sports and academic success. Our specially designed sports curriculum emphasizes strength, endurance, and agility while fostering decision making, team building, and a spirit of healthy competition.

### Skating Rink

Students can master skating skills with experienced coaches. The courtyard is equipped with support bars to ensure safety.

### Archery

This competitive sport has been introduced to enhance concentration and improve hand-eye coordination.

### Taekwondo

This combat sport channelizes energy, enhances strength, alertness, and response, and improve self-discipline at an early age.

### Athletics

Marathons, races and long jump are some of the athletics at PIET Sanskriti School. These activities enhance stamina as well as boost sportsmanship.

### Swimming

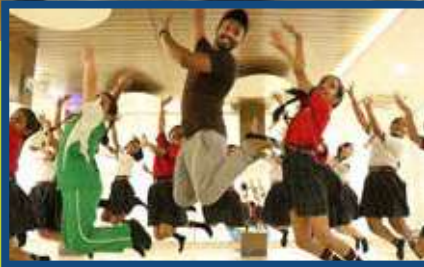

Our professional-grade swimming pool complies with high standards of safety and hygiene. The pool is equipped with water guns, mist and rain settings to make learning enjoyable.

### Shooting Range Academy

Students practice their marksmanship under the guidance of qualified coaches. The well-equipped academy is built in accordance with International Shooting Sports Federation (ISSF).

### Culture and Creativity

At PIET Sanskriti School, we endeavor to shape future-ready global citizens is also deeply rooted in our ethos. Social and ethical values are instilled in our students through appreciation of performing arts. By imbining respect for our cultural diversity, our students prepare to face the multidimensional and global society.

### Music and Dance Studio

The school provides equitable access to music and dance education, encompassing both Indian classical and western forms. Various cultural events are organized all year round, providing students the platform to showcase their talent with confidence and zeal.

### Art and Craft Room

We aim to develop an aesthetic temperament in our students through an elaborate arts and crafts room. Students can explore varied artistic interests including painting, sketching, clay modeling and woodwork to explore their creative side.

### Character Building

At PIET Sanskriti School, we believe in enhancing minds beyond classrooms. A robust academic rigor has been established by integrating modern practices with traditional values. We have updated the core CBSE curriculum with various technology tools and multidisciplinary learning modules, ensuring that our students not only excel academically but acquire communication, organizational and analytical skills for the modern world.

### Individualized Attention

Our optimistic culture shapes self-motivated individuals ready for every challenge the world has to offer. Regular assessments and counseling sessions are classes and accordingly nurture students with personalized attention.

# Environment of Opportunities

## Happiness and Positivity

The warm and welcoming environs of PIET Sanskriti School comprise spacious, air-conditioned classrooms equipped with a variety of learning aids. Beyond academics, we offer a dazzling mix of co-curricular activities, including sports and performing arts, allowing students to discover their interests and pursue the field that truly makes them happy.

## Vibrant Classrooms

The crisp and colorful ambiance in the pre-primary wing allows children to move around and explore. Each and every corner of the school has been meticulously designed to evoke attention, imagination, and creativity in students.

## Festivals and Celebrations

Festivals are integral to our tradition and we celebrate them with great zeal. Teacher's Day, Guru Parv, Dussehra, and Diwali are commemorated with cheer and gaiety. Dandiya nights and Christmas carnival are the two most awaited feasts when the whole school comes together in festive fervor.

## Student Exchange Program

We organize a variety of educational-cum-recreational programmed to inculcate essential social and life skills in our students. We organize student exchange programs to strengthen this thought. The school has tied up with Pelkhil School in Bhutan. We took some of our students to Bhutan in September 2019 to witness the Bhutanese heritage and culture and learned about the monarchy rule.

## Night Camps and Trips

Overnight camps are organized where students engage in a plethora of outdoor activities including hot-air ballooning, trampoline, DJ night. Students learn various activities such as tent pitching, flying fox, rope and other camping techniques. These camps are organized annually to provide students with inculcating survival skills as well as values of togetherness and respect for each other.

## Building skills through interactive clubs

The school has a dedicated hobby club program for classes I-VIII. The hobby clubs are conducted every Monday and Friday for an hour. Students are given the opportunity to select any activity of their choice. There are various interactive clubs offering creative liberty to students including Calligraphy, Music, Martial Arts, Yoga, Dance, Robotics, and many more.

## A Brilliant Legacy

At PIET, we are committed to nurturing thought leaders and nation builders for tomorrow. Besides PIET Sanskriti School, the Vidhyapeeth Education Trust operates PIET Sanskriti School in the NFL township as well as the Panipat Institute of Engineering and Technology. From preschool to postgraduate, PIET takes a holistic approach to quality education, offering cutting-edge learning frameworks, disciplinary research, supported by best-in-class infrastructure and intellectual capital. PIET has produced some of the finest scholars who hold coveted positions in numerous national and international organisations.
